

Retrofit Seat Replacement for Linde Reach Trucks

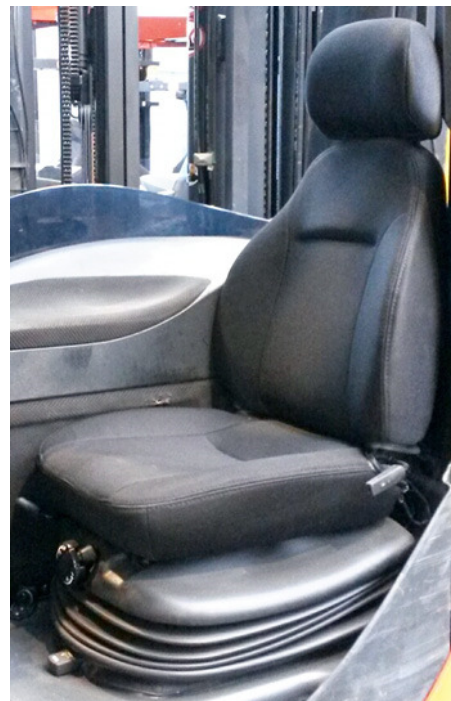

For a number of years Linde Forklifts fitted a KAB 11/L2 seat on their reach trucks. This L2 seat upper was bespoke to Linde and now discontinued.

To provide a solution United Seats offer the C1 narrow (430mm wide) upper, with headrest that can be mounted to the original KAB 11 suspension. Options such as air lumbar and even heater can be added.

ORIGINAL KAB SEAT

REPLACEMENT C1 SEAT
