KAB//Seating

KAB Seating is part of the American owned CVG group of companies with operating subsidiaries in the UK, Belgium, Australia, China and the United States of America. The KAB Seating headquarters in Northampton, England employs over 350 people and the facility covers an area of 21,000m².

The KAB Seating Work Chair range has been developed as a result of supplying vehicle seats for the transport, construction and agricultural industries.

The characteristics necessary in a good drivers seat are equally as important in the workplace today. Particular attention has been paid to criteria laid down by the British National Back Pain Association when designing the Work Chairs.

Back pain is the second biggest cause of absenteeism in the workplace and in the UK alone 70 million working days are lost annually.

If you sit with a fixed posture all day you will inevitably end up with physical aches and pains. **You have a responsibility to yourself to move.** Movement varies the stress and strains placed on the body. KAB work chairs offer every individual a variety of adjustments to provide frequent posture changes

KAB Tilt System

Regular posture change is made easy by the KAB Tilt System

- Side mounted rotary controls
- Easy weight adjustment 50-150kg
- Full tension range in less than one turn
- Easy height and tilt adjustment
- 'Anti-kick' safety system
- 24 Hour use certified

ACS EXECUTIVE

The top model of the KAB range is ideal for company executives and entrepreneurs. Trimmed in 'Vintage leather' made from prime European bull hides the ACS provides superb user comfort. Eight electrically adjustable air bags around the seat and back cushions ensure maximum comfort and focus in busy environments. The adjustability of this chair also makes it an excellent injury rehabilitation chair.

KAB Air Comfort System (ACS)

To mould the chair to your body simply press a button and the electrical pump will feed air to support the area of your preference. Press the + symbol to inflate and the - symbol to deflate. A mains charger is supplied to boost the 12v rechargeable battery every 3-4 months (subject to usage).

Charging
Point

EXECUTIVE

Ideal for **prestige offices, company executives** and 24 hour use. It's wide flat cushions also make it ideal for large users.

CONTROLLER

A 24 hour chair for primary use in surveillance and control stations. Also ideal for deluxe office environments. The standard version features a robust leather/fabric combination, providing maximum durability and comfort for 24/7 usage.

DIRECTOR

The Director is KAB's number one seller and provides top value for money and maximum reliability. It is a versatile chair, ideal for senior personnel, workstation and heavy duty environments.

MANAGER

An all round business chair for general offices, VDU operatives and industrial applications.

CONFERENCE

Robust, comfortable visitor chair. The backrest recline feature also makes this a good chair for meeting rooms.
(Armrests and headrest optional)

NAVIGATOR

A quality medium sized orthopaedic chair for VDU operators, general office use and internet users. It is a medium height chair with adjustable backrest

ASSOCIATE

An elegant high back chair which is ideal for general office use but equally strong enough like all KAB models for 24 hour applications. It is available in fabric or luxury leather.

The Associate features a unique triple lumbar system. This provides a height adjustable lumbar support to accommodate people of all heights.

1) The lumbar bulb is located in the left hand side and to the rear of the seat cushion.

2) By pumping the air bulb you inflate the three air bags.

3) By pressing buttons A, B or C you exhaust the air to allow the lumbar to support your back in the optimum way.
